

Close cooperation between CSO Energy and Italian ERG Renew

Leisnig, 09. September 2014 - From September 1st 2014, ERG Renew appointed CSO Energy as their manager for their German wind companies – as such decisions related to management, operation and maintenance will be led by Denise Koch as the County Manager in coordination and according to ERG Renew procurement guidelines. ERG Renew operates about 1.4 GW in renewable energies across Europe. Their German portfolio covers 86 MW distributed by five wind farms.

CSO Energy provides technical and commercial management solutions and consultancy services of wind services across France, Germany and Poland. The portfolio consists currently of wind farms with a total performance of more than 800 MW.
